TEST CASES PASSED

Vehicle Service Management System | Python 3

Student Name	RAM KUMAR PATEL
ERP ID	RU-26-01758
Course	BCA 1B
Project Number	PS No. 76
Main Python File	pythonPS-76.py

Testing Summary

The following test cases were run in the VS Code terminal. The outcomes below are based on the outputs provided during testing.

Test	Feature / Action	Input or condition	Observed result	Status
1	Add Record	BR02CD5678; Rahul Kumar; Car; Oil Change	Record added. Cost including 18% GST: Rs. 1770.00; status Pending.	PASSED
2	View Record	Search BR02CD5678	Displayed the matching owner, vehicle, service, cost, and Pending status.	PASSED
3	Update Service Status	BR02CD5678; new status 3 (Completed)	Status updated: Pending -> Completed.	PASSED
4	Delete Record	Delete BR02CD5678	Record for BR02CD5678 deleted.	PASSED
5	View All Records	Select menu option 5	Displayed 3 remaining records; BR02CD5678 was not listed.	PASSED
6	Exit	Select menu option 6	Displayed: Thank you for using Vehicle Service Management!	PASSED

Additional Observation

During the View All Records test, the program displayed three existing records (BESDG545, MH12AB1234, and BR01AB1234). The newly added test record BR02CD5678 was absent after the delete operation, confirming that the deletion was reflected in the saved records.

Overall Result

6 of 6 test cases passed in the observed run. This report records the terminal outputs shared during the test session; it does not include screenshots because the results were provided as text.
